## OBJECTIVE

---

To live my life, working at a Job I love as a UIUX Designer.

## SKILLS & ABILITIES

---

Graphic Designing: I am well suited with my tool Adobe Photoshop CC to achieve outstanding designs.

Video Editing: Final Cut Pro X is my companion, helping me through adding effects and animations which makes my work stand out.

UI Design: I know my way around Adobe XD and Sketch.

Foreign Language: Along with my English I am also fluent in French.

Programming: I am well versed with multiple programming languages such as C Language, Python, Java and C++.

Website Design: With my use of HTML along with CSS and JavaScript, I can design interactive professional Websites.

I am well organized with my work enabling me with time management skills in order to complete my work efficiently.

## EXPERIENCE

---

From June 2020-  
Current

Graphic Designer, *APOCALYPSE*

Being the founder of APOCALYPSE to signify new beginnings for brands and startups as a freelancer.

From June 2020-  
To August 2020

Digital Marketing, *Alterego Learning*

Worked as an intern along with youtubers to gain Marketing knowledge to go along with my designing. Got an opportunity to handle their official Social Media accounts which gave me a lot of exposure.

---

---

## COMMUNICATION

Through my journey from school life to College, I have been improving my communication skills. I have widened my reach and stood up for speeches at multiple occasions. My ability to converse in French gives me an edge over others. My experience has moulded me into a confident speaker amongst huge crowds.

---
